

Airmaster Aerator “Turbo X-Treme Magnum” Water Cannon

The Water Cannon aerator is Airmaster’s standard high-efficiency, 50 Hp magnum floating/surface aerator (which can pump up to 12.5 million gallons of water per day) has been upgraded with the addition of the new rotating water cannon. In operation, the Water Cannon (which is powered by a separate 7.5 H.P. grinder pump) rotates 360 degrees in 1 minute 35 seconds, spraying out over 100 gallons of water per minute in an approximate 230 feet diameter, achieving foam suppression, aeration, evaporation, and cooling.
